## SUMMARY

I am a dedicated and passionate software engineering student, I thrive on problem-solving and innovation. With a strong foundation in both coding and design, I'm committed to creating intuitive, high-quality solutions. I'm always eager to learn, adapt, and contribute to the ever-evolving tech landscape.

---

## SKILLS

HTML	Tailwind CSS	Java	SQL
CSS	Node.js	API	Figma
JavaScript	Express.js	React	
PHP	MongoDB	Spring Boot	

---

## EDUCATION

<b>Bachelor of Science in Computer Science and Software Engineering</b>	<b>Oct 2023 - Apr 2025</b>
Sri Lanka Institute of Information Technology	

---

## FREELANCING

<b>Eles Emes</b>	<b>July 2024 - Aug 2024</b>
------------------	-----------------------------

[\[Macroncolours.com\]](https://macroncolours.com)

Developed a responsive web application for Eles Emes, a paint manufacturing company, to enhance their online presence.

**Technologies :** HTML, CSS, PHP, JS, SQL and an external API

<b>Readway International</b>	<b>Feb 2024 - Mar 2024</b>
------------------------------	----------------------------

[\[Readwayinternational.com\]](https://readwayinternational.com)

Developed a mobile responsive website for Readway International with details about the school and a contact page made with PHP

**Technologies :** HTML, CSS, PHP and JS

---

## PROJECTS

### Recipe App

[[github.com/Shahibdha/RecipeApplicationlication](https://github.com/Shahibdha/RecipeApplicationlication)]

Developed a Recipe Android Application via Android Studio using where the users can search for a particular food and its recipe will be fetched from the API and be displayed on the screen

**Technologies** : JAVA, Groovy, JS, an external API and Firebase as the Database

### Pet Shop

[[github.com/Shahibdha/Pet-Shop](https://github.com/Shahibdha/Pet-Shop)]

Developed a Web Application with a CRUD function and both the Client and Admin side

**Technologies** : React, Spring Boot and SQL

### My Share

[[github.com/Shahibdha/My-Share](https://github.com/Shahibdha/My-Share)]

Developed a Java Swing Desktop Application via IntelliJ IDEA

**Technologies** : JAVA and SQL with OOP concepts

### Mern Project

[[github.com/Shahibdha/Mern](https://github.com/Shahibdha/Mern)]

Developed a fully functional and mobile responsive Restaurant web application.

**Technologies** : MongoDB, Express.js, React.js, Node.js, TailwindCSS and SQL

---
